SERVICE

INTERNATIONAL COMBINED TRANSPORTATION

INTERNATIONAL MULTI-MODAL DISTRIBUTION SERVICES

Our network spans the entire globe; however, we continue to expand our unique network to meet the ever-increasing demand of our valued customers. Sankyo Corporation started its global expansion with the opening of our Seattle Office in 1989, and now having offices and partners not only in the United States but also in Europe, China and Southeast Asia, etc. We use our unique integrated network of air, land and ocean transport to offer our customers the best services in the industry.

IMPORT AND EXPORT, CUSTOMS CLEARANCE

AGENCY SERVICES FOR CUMBERSOME IMPORT/EXPORT PROCEDURES.

Sankyo help our customers as a business partner by supporting all your import/export activities. At the same time, we also extend our services for helping our customers with all of your import/export procedures – from start to finish. We offer integrated services from import/export goods, declaration to payment of taxes to customers using our accumulated expertise on any commodity. We have a staff of specialists who will assist you on the import/export procedures so that they are carried out smoothly, speedily and cost effectively.

PORT TRANSPORTATION

HARBOR TRANSPORTATION SERVICES

SMOOTHLY LINKING LAND AND OCEAN TRANSPORT IS AN IMPORTANT.

ingredient of our service package Harbor transport is our main line of business since our company's establishment. We transport imported goods from the time of discharge from vessels in Japan to their final destination and conversely, we transport export goods from their origin points in Japan to their loading ports. We also provide services such as: freight loading/unloading, transportation within the port/harbor area, grouping/separation of freight and storage in warehouses, receipt/delivery of cargo and quantity/weight and status inspection, and numerous other

HARBOR LOADING / UNLOADING SERVICES (STEVEDORING).

WE CAN FLEXIBLY HANDLE VARIOUS KINDS OF SHIPS AND ANY KIND OF FREIGHT.

In accordance with our motto, we make sure that goods are delivered safely, surely, and in a timely manner to our customers from the main ports of Japan, namely Yokohama, Tokyo, and Chiba. With the changing times, ships have also become diversified from conventional ships and container ships to RORO (Roll On/Roll Off) ships. And, so is the type of stevedore services. We pay the closest attention to all kinds of freight from raw materials to final products, so that they are handled with utmost care and efficiency. Our staff, experienced in the operation of cargo-handling gear, will effectively

SHIP AGENCY SERVICES

SMOOTHLY LINKING LAND AND OCEAN TRANSPORT IS AN IMPORTANT.

We transport imported goods from the time of discharge from vessels in Japan to their final destination and conversely, we transport export goods from their origin points in Japan to their loading ports. We handle procedures associated with ship berthing and sailing for foreign and Japanese steamship lines in the port areas of Yokohama and Tokyo. We also provide services such as freight loading/unloading, transportation within the port/harbor area, grouping/separation of freight and storage in warehouses, receipt/delivery of cargo and quantity/weight and status inspection,

DOMESTIC LOGISTICS

DOMESTIC DISTRIBUTION SERVICES.

We totally support our customers' distribution efficiency. To help you in your SCM (Supply Chain Management), we support you not only in your transportation but also provide 3PL (Third Party Logistics) services to back up your distribution business totally. At the same time, our experienced staff and our group companies, as well as our network system, are always ready to

MAIN HANDLING ITEMS

From raw materials to consumer products and even to recycled goods, we are constantly seeking to contribute to society by building a comfortable environment through ways we are most experienced in - distribution. Through distribution, we come into contact with global commodities that enrich our lives and make it convenient and comfortable. Our experience and services are as varied and numerous as the kinds of commodities that we handle. With the expertise in distribution that Sankyo Corporation has cultivated over the years, we are able

MAIN HANDLING ITEMS

HOUSING / MATERIALS

WE HELP YOU BUILD HOUSES TO MATCH YOUR LIFESTYLE.

We help you build houses to match your lifestyle by importing various housing materials another item of our specialty. We are involved in the housing business where we help procurement and importation of lumber and other housing materials from North America, Europe, China, and countries in the Southern Hemisphere. As integrated services, we also provide transportation, unloading, documentation, stevedoring, warehousing, and domestic transportation services. Domestically, we transport lumber and housing materials from Hokkaido in the north to Kyushu in the south of Japan. Our sales, operation, and customs clearance staff are experienced professionals who are able to present an integrated transport service package, from port of import to the customer's site. Please come to us if you have any questions or requests on handling imported housing materials.

VEHICLES, MACHINES AND EQUIPMENT

IN THIS AGE OF MOTORIZATION, CARS ARE INDISPENSABLE TO OUR LIVES.

In this age of motorization, cars are indispensable to our lives. It is so much a part of our daily lives that we call our society a "Car Society" and the role that it has played in advancing IT and latest technology is extensive. Sankyo Corporation offers the following services for new and used cars, trucks, motorcycles, CKDs, machinery and plant facilities: loading and unloading, export/import procedures, customs clearance and delivery to and installation at end-users. Another service we offer is the support of used car auction events where we deliver vehicles to the auction site, and then to the bidders, and we support the management of the site. We also support the import/export of boats, from small yachts to huge cruisers, as well as sponsor one of the largest boat shows in Japan by acting as the official freight forwarder for the event. At the same time, we support the Boat Show, the biggest of such events in Japan, as the official freight forwarder.

FOOD

DELICACIES FROM ALL OVER THE WORLD.

Just think about the food on your dining table everyday, or the food that you are served in a restaurant. Much of them are imported from abroad. Food is being imported into Japan from all over the world, although in recent years, high-value exports from Japan to the world have been on the rise. Foodstuff that sustains our lives is one of the main items that we handle at Sankyo Corporation. We handle foodstuff such as grain, livestock products, marine products, vegetables, fruits, and numerous other products with utmost care so that their freshness is maintained, and they are stored and transported the way they should be. Our professional staff handles the foodstuff from their production sites to the consuming destinations with utmost care.

GENERAL CARGO

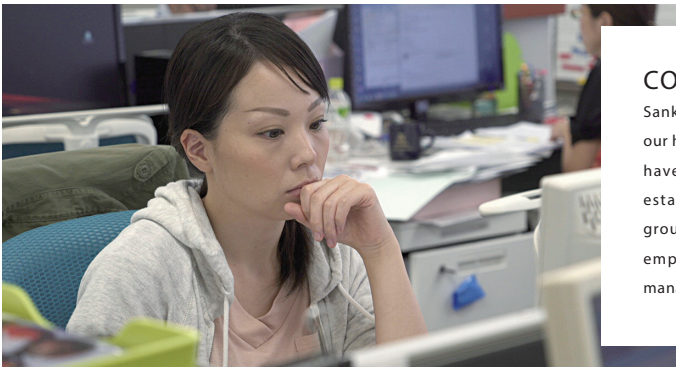

WE HANDLE VARIOUS CARGO CLASSIFIED AS "GENERAL COMMODITIES"

This type of commodity surrounds us everywhere. Besides foodstuff and lumber, we handle various cargo classified as "General Commodities." There are many commodities that you see in your everyday life. For instance, paper that is used to make books and magazines, fashionably designed furniture and interior items, rubber for manufacturing tires and golf balls, Animal Feed to raise livestock and fertilizers that are used to raise crops, chemical products, fireproof material, cooking oil, and countless others. They may vary in shape and size; animals may be required to receive quarantine; and plants may have to receive inspection according to Import Regulations. Our professional staff is always ready to serve our customers in times of need so that operations can be carried out quickly and smoothly.

INITIATIVES

OUR CORPORATE SOCIAL RESPONSIBILITIES (CSR)

We will strive to do our part in contributing to society and to become a trusted and respected company in the world through our CSR activities. That is to say, we will obey laws and regulations; be a social ethics model; observe international rules; provide safe and high-quality services; build fair and healthy business relationships; observe the region's culture and customs; cooperate in environment preservation activities; offer eco-friendly distribution services and offer a comfortable and safe workplace.

COMPLIANCE

Sankyo Corporation contributes to society, economy, and environment through our highly public activity of intermodal distribution business. To achieve these, we have structured our organization to meet the various compliances; we have established a common procedure to observe the rules and regulations in our group, and have set common behavioral rules for our directors, executives and employees to follow. Our Internal Audit Procedures have been developed to manage risk effectively and also to accomplish our corporate social responsibility.

ENVIRONMENTAL POLICY

Sankyo Corporation works positively in solving environmental issues in line with our Corporate Philosophy and Management Policy. We undertake the following activities to preserve the environment and to prevent pollution: Observe the laws, regulations, agreements on the environment, and other social requirements. We structure our company organization to firmly execute our environmental policies. In performing harbor transportation and related businesses (including warehouse and tugboat) and in offering various services related to intermodal distribution, we strive to : accomplish safety of work; prevent air and marine pollution; promote conservation of resources and energy; enhance energy efficiency; reduce waste, and promote recycling. By setting environmental goals and objectives and by reviewing them regularly, we continuously implement environmental policies, and constantly update them. Disseminate our environmental policy to all employees through environmental education programs in order to improve their awareness of environmental protection. Put the policy in writing so that it can be disclosed to the public upon request.

GREEN MANAGEMENT CERTIFICATION

We strive to contribute to the maintenance of the global environment by offering eco-friendly physical distribution services, and we strive to become a company that is held in high esteem. We have been awarded the Green Management Certification by the Foundation for Promoting Personal Mobility and Ecological Transportation. This award is in recognition of our constant efforts to conduct business in a friendly way to the environment to reduce environmental burden. The emblem of certification signifies our commitment to continue to contribute to the maintenance of the global environment through our distribution services so that we will always be considered an environmentally-friendly company by the society we operate in.
